BUY141

What is BUY141?

BUY141 is a selective debt acquisition program offered by Daniel Attorneys. Instead of purchasing an entire book of debt in bulk, we assess and acquire individual debt accounts on a one-for-one basis.

How BUY141 works

Step 1

You identify the specific overdue accounts that you want to collect on and hand same over to our office on our risk-free debt collection scheme.

Step 2

We assess the matter. Our team reviews the debt details, including the debtor's profile (individual or company). The age of the debt. The legal enforceability of the claim. Supporting documentation (invoices, contracts, proof of demand, etc.). We assess the likelihood of recovery and try to obtain a signed Acknowledgement of Debt.

Step 3

If the debt meets our criteria, we present an offer to purchase it from you. The offer will be based on the debt amount, recovery potential, and debtor risk profile.

Step 4

You get paid. Once the offer is accepted, we purchase the debt from you. Payment is made directly to you, providing instant liquidity without waiting for collection.

Step 5

We handle recovery after purchase. We assume full legal and financial responsibility for collecting the debt.

Key Benefits of BUY141

- ✓ Immediate Cash Flow – No more waiting for payments.
- ✓ Risk-Free – Once the debt is sold, you have no further involvement.
- ✓ Legal Expertise – We handle recovery professionally and lawfully.
